"For one hundred years, we have been a nonpartisan, activist, grassroots organization that believes voters should play a critical role in democracy."

-- The League of Women Voters, 2020

Our vote is the tool we have for keeping our democratic government and way of life. Many countries in the world envy our system of governing; when it works as intended, it is to be envied.

The League of Women Voters has a long and tireless history of encouraging people to vote and providing information for citizens to make knowledgeable selections among candidates. We sponsor debates and forums for the public to listen to and interact with our local and state office-seekers. We supply information about voter registration and work to keep the process of voting fair and valid. We testify in our State House in support of legislation we consider helpful to our population. And we join other organizations on matters of health, climate, and the education of our children.

Join us in promoting informed civic participation and help us advocate for the rights our constitution provides us. Men and women (over the age of sixteen) are welcome.
